Chief Information Officer of Navy and Marine Corps Intranet, Donald General, Joins Maryland firm, Caelum Research Corporation

Caelum Research Corporation of Rockville, MD has appointed Mr. **Donald General** as Vice President for Information Technology effective June 16, 2008. Mr. General will also lead the Caelum Hampton Roads Operations (HRO) office in Chesapeake, Virginia.

Prior to joining Caelum, Mr. General served as Executive Director of the Global Network Operations Center Detachment Command (GNOC) and as Chief Information Officer (CIO) of the Navy and Marine Corps Intranet (NMCI). In that capacity, Mr. General was responsible for the development, implementation, planning, and monitoring of the NMCI operational enterprise, including managing a comprehensive Operational Information Assurance (IA) program.

Mr. General oversaw the management of all day-to-day operations of the \$11 billion dollar NMCI project at the GNOC, located in Norfolk, Virginia. The GNOC insures the NMCI enterprise sustains its operational readiness to over 750,000 Navy warfighters in support of the Navy network requirements of the Chief of Naval Operations (CNO) and the operational combat commanders.

An advocate of “life-long” learning, Mr. General graduated *magna cum laude* with a Bachelor of Science degree from Park University and a Masters of Science degree in Computer Systems Management from the University of Maryland. He is currently a Doctor of Philosophy (Ph.D.)

candidate in Business Administration at Northcentral University, specializing in Computer Information Security.

Mr. General also serves as an adjunct professor at Florida Institute of Technology teaching graduate students the management of information systems. Mr. General is also a guest lecturer at Old Dominion University and Norfolk State University, where he advises students on the idiosyncrasies of network security.

Caelum Research Corporation, providing clients with innovative solutions, is an award-winning technology firm providing research and support services to federal and local government clients worldwide. Proven core competencies include Information Technology, Applied Sciences, Program Management, and Systems Engineering. Caelum CEO, Diana Yeh, said: “We at Caelum are absolutely delighted to have Mr. General. His proven leadership in the IT community will greatly enhance our service offering in Information Assurance technology, specifically in areas that involve Computer Network Defense, Enterprise Network Monitoring, Red-Team-Risk Assessment, and Certification and Accreditation.” For more information contact Caelum Research Corporation at 1700 Research Boulevard, Suite 250, Rockville, Maryland 20850 or visit the website at www.caelum.com.
